Little by little, she reclaims old dreams, build new ones, and falls in love with the one that was always meant to be.

Reasons to Read Can We Start Over?

◆ Live with Two Hot, Successful Childhood Besties!

They know the heroine better than anyone else. There’s a comfort in being understood without even having to say a word, and yet that makes it so much more difficult to make the leap from friendship to romance. It turns out those three little words are harder to say than anything, even when her head has finally caught up with her heart.

◆ Reclaim Self-Confidence & Have Fun with Love

Cheated on by her fiance the night before she’s set to be married, the protagonist loses her partner, her home, and her job all at once. This is a tale of starting over. This dramatic tale follows how, through living with her oldest friends, she finds new dreams, the love of her life, and ultimately a version of herself she lost over the years.
